

## FINN TRU-MULCH

### Application Rate Chart

These are general guidelines for application rates.

Actual rates should be determined by the project, soil conditions and time of year.

Product	Length of slope w/o interruption	Flat to 4:1	To 3:1	To 2:1	To 1:1
TRU-Wood	30'	1500kg/ha	2000kg/ha		
TRU-BOND	70'	2500kg/ha	3000kg/ha	3500kg/ha	4000kg/ha

Maximum performance is increased with the two-step application method used on rates of 2500kg/ha and more.
